## Low Cost Label Rewind Units

MC-10

MC-11

MC-10 with Bail

The LABELMATE MINI-CATs are low-cost Universal Label Rewinders capable of rewinding any width labels up to 115-mm wide at speeds of up to 15-cm/sec. Label roll o.d.s up to 22cm can be accommodated. MC-10 does "on-shaft" rewind (no core required), and also has a 76-mm (3") core holder. The MC-11 has a 25-to101- mm Adjustable Core Holder.

The MINI-CATs use LABELMATE's proprietary Constant Adjustable Torque™ ("CAT") technology to achieve impressive, reliable performance at an unprecedented low price. A special motor, designed specifically for the MINI-CATs, offers bi-directional operation and trouble-free performance. A switch conveniently controls the amount of rewind torque. No awkward tensioning arms or troublesome belts or clutches are used and no speed adjustments are required. The MINI-CATs automatically adjust to any printer speed up to 15-cm/sec and automatically allow for back feeding labels if your printer requires it.

For short to medium runs, labels can be conveniently wound directly on the MC-10, eliminating the need for cardboard rewind cores. If you wish to use rewind cores you can use the MC-10's 76-mm core holder or the MC-11's Adjustable Core Holder (25- to 101-mm). The MINI-CATs are supplied with a single inner label flange to keep the edge of the labels aligned as they are being rewound. Also available is an optional Adjustable Paper Guide or a second flange to guide the outer edge of the labels, if desired.

Rugged, heavy-duty construction allows the MINI-CAT to be simply set in place near the exit path of the label printer. Special anti-slip base material prevents the unit from moving. Put the MINI-CATs to work for you today and enjoy a new dimension in label rewinding convenience and reliability.

- **Label Width:** Up to 11.5-cm. Maximum roll weight: 4-kg.
- **Rewind Label Roll Size:** Up to 22-cm. MC-10: convenient coreless rewinding and 76-mm core holder. MC-11: Adjustable Core Holder for 25- to 101-mm diameter cores.
- **Speed:** The MINI-CATs automatically adjust to any printer speed up to 15+ cm/sec. No speed adjustments are required. Torque / Rewind Force is switch adjustable.
- **Direction:** Bi-directional. Direction is switch selectable.
- **Power:** Convenient ON-OFF switch. 220vac 50Hz. 10 va. CE/UL Listed Power Supply.
- **Options:** MC-10-APG Adjustable Paper Guide
- **Warranty:** Limited 3-year warranty against defects in Workmanship and Materials.
